## The Myth of Morgan la Fey (Arthurian and Courtly Cultures) Kristina Pérez

The sister of King Arthur goes by many names: sorceress, kingmaker, death-wielder, mother, lover, goddess. *The Myth of Morgan la Fey* reveals her true identity through a comprehensive investigation of the famed enchantress' evolution - or devolution - over the past millennium and its implications for gender relations today. While Western culture consistently seeks to control female sexuality by categorizing a woman's identity into either a mother or a lover, i.e. a Madonna or a whore, Morgan offers a unique duality, a refusal to let her identity be fractured. Here, Kristina Pérez makes the connection between the tension between those two roles and Morgan la Fey's descent within Arthurian legend from goddess to witch.
