Intelligent Technologies for Web Applications (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) Srinivas Sajja, Priti

The Internet has become an integral part of human life, yet the web still utilizes mundane interfaces to the physical world, which makes Internet operations somewhat mechanical, tedious, and less human-oriented. Filling a large void in the literature, **Intelligent Technologies for Web Applications** is one of the first books to focus on providing vital fundamental and advanced guidance in the area of Web intelligence for beginners and researchers.

The book covers techniques from diverse areas of research, including:

- Natural language processing
- Information extraction, retrieval, and filtering
- Knowledge representation and management
- Machine learning
- Databases
- Data, web, and text mining
- Human–computer interaction
- Semantic web technologies

To develop effective and intelligent web applications and services, it is critical to discover useful knowledge through analyzing large amounts of content, hidden content structures, or usage patterns of web data resources. Intended to improve and reinforce problem-solving methods in this area, this book delves into the hybridization of artificial intelligence (AI) and web technologies to help simplify complex Web operations. It introduces readers to the state-of-the-art development of web intelligence techniques and teaches how to apply these techniques to develop the next generation of intelligent Web applications.

The book lays out presented projects, case studies, and innovative ideas, which readers can explore independently as standalone research projects. This material facilitates experimentation with the book's content by including fundamental tools, research directions, practice questions, and additional reading.

From reader reviews:

Arthur Mead:

In this 21st one hundred year, people become competitive in each way. By being competitive right now, people have do something to make these people survives, being in the middle of the particular crowded place and notice by surrounding. One thing that at times many people have underestimated the item for a while is reading. Yep, by reading a guide your ability to survive boost then having chance to remain than other is high. For you personally who want to start reading the book, we give you this Intelligent Technologies for Web Applications (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) book as nice and daily reading reserve. Why, because this book is usually more than just a book.

Charles Towns:

The guide untitled Intelligent Technologies for Web Applications (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) is the reserve that recommended to you to learn. You can see the quality of the e-book content that will be shown to you. The language that article author use to explained their ideas are easily to understand. The author was did a lot of study when write the book, therefore the information that they share for you is absolutely accurate. You also might get the e-book of Intelligent Technologies for Web Applications (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) from the publisher to make you much more enjoy free time.

David Reed:

People live in this new moment of lifestyle always try and and must have the time or they will get great deal of stress from both day to day life and work. So , once we ask do people have extra time, we will say absolutely yes. People is human not just a robot. Then we ask again, what kind of activity have you got when the spare time coming to you of course your answer will certainly unlimited right. Then do you try this one, reading guides. It can be your alternative within spending your spare time, often the book you have read will be Intelligent Technologies for Web Applications (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series).

Ian Bracy:

A lot of e-book has printed but it takes a different approach. You can get it by world wide web on social media. You can choose the top book for you, science, comedy, novel, or whatever by simply searching from it. It is identified as of book Intelligent Technologies for Web Applications (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series). Contain your knowledge by it. Without departing the printed book, it could possibly add your knowledge and make you happier to read. It is most essential that, you must aware about book. It can bring you from one location to other place.
