Algebraic Geometry and Commutative Algebra: In Honor of Masayoshi Nagata: 2 Hiroaki Hikikata
Algebraic Geometry and Commutative Algebra in Honor of Masayoshi Nagata presents a collection of papers on algebraic geometry and commutative algebra in honor of Masayoshi Nagata for his significant contributions to commutative algebra. Topics covered range from Weierstrass models and endomorphism algebras of abelian varieties to the generic Torelli theorem for hypersurfaces in compact irreducible hermitian symmetric spaces. Coarse moduli spaces for curves are also discussed, along with discriminants of curves of genus 2 and arithmetic surfaces.

Comprised of 14 chapters, this volume begins by describing a basic fibration as a Weierstrass model, with emphasis on elliptic threefolds with a section. The reader is then introduced to canonical bundles of analytic surfaces of class VII₀ with curves; Lifting Problem on ideal-adically complete noetherian rings; and the canonical ring of a curve. Subsequent chapters deal with algebraic surfaces for regular systems of weights; elementary transformations of algebraic vector bundles; the irreducibility of the first differential equation of Painlevé; and F-pure normal rings of dimension two. The book concludes with an assessment of the existence of some curves.

This monograph will be a useful resource for practitioners and researchers in algebra and geometry.

From reader reviews:

William Nelson:

The e-book untitled Algebraic Geometry and Commutative Algebra: In Honor of Masayoshi Nagata: 2 is the reserve that recommended to you to study. You can see the quality of the publication content that will be shown to anyone. The language that publisher use to explained their ideas are easily to understand. The author was did a lot of analysis when write the book, therefore the information that they share to your account is absolutely accurate. You also might get the e-book of Algebraic Geometry and Commutative Algebra: In Honor of Masayoshi Nagata: 2 from the publisher to make you much more enjoy free time.

Terrence Kimball:

The e-book with title Algebraic Geometry and Commutative Algebra: In Honor of Masayoshi Nagata: 2 has lot of information that you can find out it. You can get a lot of benefit after read this book. That book exist new understanding the information that exist in this publication represented the condition of the world right now. That is important to yo7u to be aware of how the improvement of the world. This specific book will bring you with new era of the globalization. You can read the e-book on your own smart phone, so you can read the item anywhere you want.

Marsha Young:

Do you have something that you like such as book? The publication lovers usually prefer to choose book like comic, short story and the biggest one is novel. Now, why not hoping Algebraic Geometry and Commutative Algebra: In Honor of Masayoshi Nagata: 2 that give your fun preference will be satisfied by means of reading this book. Reading routine all over the world can be said as the opportunity for people to know world a great deal better then how they react towards the world. It can't be mentioned constantly that reading practice only for the geeky man or woman but for all of you who wants to be success person. So , for every you who want to start looking at as your good habit, it is possible to pick Algebraic Geometry and Commutative Algebra: In Honor of Masayoshi Nagata: 2 become your starter.

Arthur Mead:

It is possible to spend your free time to study this book this reserve. This Algebraic Geometry and Commutative Algebra: In Honor of Masayoshi Nagata: 2 is simple to deliver you can read it in the park, in the beach, train as well as soon. If you did not include much space to bring the particular printed book, you can buy the particular e-book. It is make you easier to read it. You can save typically the book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.
