The Duty of Medical Practitioners and CAM/TCM Practitioners to Inform Competent Adult Patients about Alternatives Xiju Zhao

The book pays interest to a small and almost untouched topic: a health practitioner' s duty to inform about alternatives. It covers both orthodox medicine practitioners and CAM practitioners. The topic is explored in a comparative way, examining the laws of not only common law jurisdictions, such as the USA, England, Canada, Australia, New Zealand, but also two East Asia jurisdictions (China and Japan) . It uses the collective wisdom of several common law jurisdictions, but also differentiates them. It places the issue of "disclosure of alternatives" in a clear and wider context, making a cogent distinction between diagnosis/treatment and information disclosure. ?
