**One year of dating. One year of looking for love. One uproarious and touching memoir.**

After years of dating without a connection, Rachel Machacek vowed to try a more dedicated, less slipshod, more scientific way of finding love. So, she committed a year of her life to trying every mainstream (and not-so-mainstream) method of meeting the right guy. In *The Science of Single*, Rachel welcomes readers into the findings from her roller-coaster year, and although she set out looking for the right chemistry, what she discovers in the process is hilarious, unexpected, and infinitely more exciting.
