All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems Jonathan P. Castro

All IP in 3G CDMA Networks covers all the key aspects of UMTS and its implementation from both the engineering designer and the operator and service providers' point of view. It addresses the essential tasks involved in the UMTS network deployment in new regions and within existing 2G/2.5G networks.

Key features:

- Presents solutions for the integration and coexistence of 2G and 3G systems and highlights the seamless interoperability functions between GSM and UMTS.
- As part of the evolution towards All IP cellular networks, it outlines the IP Multimedia Subsystem - IMS and the packet optimized Radio Access Network, including High Speed Download Packet Access.
- Provides a complete picture of broadband wireless through UMTS, whilst describing applications enabler platforms and the criteria for 3G services that enhance the user experience.

By providing one integrated source in UMTS and its evolution, *All IP in 3G CDMA Networks* represents an invaluable resource for design engineers, operators and services providers. Likewise, Technical and Marketing Executives and Managers in wireless communications or related areas, and Business or Sales channels representatives, will benefit from this concise volume in 3G networks and services enablers. Academic programmes in Telecommunications and Information Technology segments at senior or postgraduate level, will also find valuable contributions in this book.

From reader reviews:

Francis Rutland:

This All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems are reliable for you who want to become a successful person, why. The reason of this All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems can be among the great books you must have is giving you more than just simple reading food but feed you actually with information that maybe will shock your earlier knowledge. This book is handy, you can bring it almost everywhere and whenever your conditions in e-book and printed kinds. Beside that this All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems forcing you to have an enormous of experience for example rich vocabulary, giving you tryout of critical thinking that could it useful in your day action. So , let's have it appreciate reading.

Donald Chapin:

Precisely why? Because this All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems is an unordinary book that the inside of the guide waiting for you to snap it but latter it will zap you with the secret the idea inside. Reading this book adjacent to it was fantastic author who also write the book in such remarkable way makes the content interior easier to understand, entertaining method but still convey the meaning totally. So , it is good for you for not hesitating having this any more or you going to regret it. This amazing book will give you a lot of rewards than the other book have such as help improving your expertise and your critical thinking approach. So , still want to postpone having that book? If I were being you I will go to the book store hurriedly.

Howard Foster:

This All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems is completely new way for you who has fascination to look for some information as it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know or else you who still having little bit of digest in reading this All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems can be the light food to suit your needs because the information inside that book is easy to get through anyone. These books produce itself in the form which is reachable by anyone, yep I mean in the e-book contact form. People who think that in guide form make them feel tired even dizzy this guide is the answer. So there isn't any in reading a publication especially this one. You can find actually looking for. It should be here for an individual. So , don't miss the item! Just read this e-book variety for your better life in addition to knowledge.

William Bell:

What is your hobby? Have you heard that question when you got students? We believe that that question was given by teacher to their students. Many kinds of hobby, Every individual has different hobby. And you also

know that little person including reading or as reading through become their hobby. You need to understand that reading is very important as well as book as to be the issue. Book is important thing to increase you knowledge, except your teacher or lecturer. You discover good news or update about something by book. Numerous books that can you choose to adopt be your object. One of them is this All IP in 3G CDMA Networks: The UMTS Infrastructure and Service Platforms for Future Mobile Systems.
