Gender Development

Judith E. Owen Blakemore, Sheri A. Berenbaum, Lynn S. Liben

Gender Development Judith E. Owen Blakemore, Sheri A. Berenbaum, Lynn S. Liben

This new text offers a unique developmental focus on gender. Gender development is examined from infancy through adolescence, integrating biological, socialization, and cognitive perspectives. The book's current empirical focus is complemented by a lively and readable style that includes anecdotes about children's everyday experiences. The book's accessibility is further enhanced with the use of bold face to highlight key terms when first introduced along with a complete glossary of these terms. All three of the authors are respected researchers in divergent areas of children's gender role development and each of them teaches a course on the topic.

The book's primary focus is on gender role behaviors – how they develop and the roles biological and experiential factors play in their development. The first section of the text introduces the field and outlines its history. Part 2 focuses on the differences between the sexes, including the biology of sex and the latest research on behavioral sex differences, including motor and cognitive behaviors and personality and social behaviors. Contemporary theoretical perspectives on gender development – biological, social and environmental, and cognitive approaches – are explored in Part 3 along with the research supporting these models. The social agents of gender development, including children themselves, family, peers, the media, and schools are addressed in the final part.

Cutting-edge and comprehensive, this is the perfect text for those who have been searching for an advanced undergraduate and/or graduate book for courses in gender development, the psychology of sex roles and/or gender and/or women or men, taught in departments of psychology, human development, and educational psychology. Although chapters have been designed to be read sequentially, a full author citation is included the first time a reference is used within an individual chapter rather than only the first time it is used in the book, making it easy to assign chapters in a variety of orders. This referencing system will also appeal to scholars interested in using the book as a resource to review a particular content area.

From reader reviews:

Royce Axtell:

Do you have favorite book? Should you have, what is your favorite's book? Publication is very important thing for us to understand everything in the world. Each book has different aim as well as goal; it means that book has different type. Some people truly feel enjoy to spend their a chance to read a book. They may be reading whatever they consider because their hobby is actually reading a book. Why not the person who don't like studying a book? Sometime, person feel need book when they found difficult problem or perhaps exercise. Well, probably you will need this Gender Development.

Lourdes Tyner:

The book Gender Development can give more knowledge and also the precise product information about everything you want. Why must we leave the great thing like a book Gender Development? Several of you have a different opinion about book. But one aim this book can give many details for us. It is absolutely appropriate. Right now, try to closer with your book. Knowledge or details that you take for that, you can give for each other; you are able to share all of these. Book Gender Development has simple shape but you know: it has great and big function for you. You can look the enormous world by open up and read a reserve. So it is very wonderful.

Priscilla Garcia:

What do you concerning book? It is not important together with you? Or just adding material when you really need something to explain what yours problem? How about your free time? Or are you busy man? If you don't have spare time to complete others business, it is make you feel bored faster. And you have free time? What did you do? Every individual has many questions above. They should answer that question mainly because just their can do this. It said that about book. Book is familiar on every person. Yes, it is proper. Because start from on kindergarten until university need this kind of Gender Development to read.

Ana May:

Information is provisions for anyone to get better life, information today can get by anyone with everywhere. The information can be a knowledge or any news even an issue. What people must be consider any time those information which is within the former life are challenging be find than now's taking seriously which one is suitable to believe or which one the actual resource are convinced. If you obtain the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen inside you if you take Gender Development as the daily resource information.
