A Natural Law Approach to Normativity Bebhinn Donnelly

Exploring the relationship between natural law theory and the philosophy of law, Bebhinn Donnelly proposes a new approach to natural law theory - one which addresses some of the tradition's shortcomings and advances further its approach to Hume's dichotomy. Key features:

- Provides a clear definition of 'nature' in this context
- Contrasts the work of Hume and Kant regarding the 'is/ought' issue
- Examines the approach in traditional natural law
- Presents a full discussion of Finnis and the departure from traditional natural law
- Proposes a new, natural law approach to normativity, drawing on the strengths of traditional natural law theory
- Illustrates how natural law may provide a normative base for law

A Natural Law Approach to Normativity presents an original perspective on natural law theory and will be of interest to academics in philosophy of law, moral/political philosophy, natural law theorists, and students of jurisprudence internationally.
