Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods

Yunmin Zhu, Jie Zhou, Xiaojing Shen, Enbin Song, Yingting Luo

Due to the increased capability, reliability, robustness, and survivability of systems with multiple distributed sensors, multi-source information fusion has become a crucial technique in a growing number of areas—including sensor networks, space technology, air traffic control, military engineering, agriculture and environmental engineering, and industrial control. **Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods** presents advanced mathematical descriptions and methods to help readers achieve more thorough results under more general conditions than what has been possible with previous results in the existing literature.

Examining emerging real-world problems, this book summarizes recent research developments in problems with unideal and uncertain frameworks. It presents essential mathematical descriptions and methods for multisensory decision and estimation fusion. Deriving thorough results under general conditions, this reference book:

- Corrects several popular but incorrect results in this area with thorough mathematical ideas
- Provides advanced mathematical methods, which lead to more general and significant results
- Presents updated systematic developments in both multisensor decision and estimation fusion, which cannot be seen in other existing books
- Includes numerous computer experiments that support every theoretical result

The book applies recently developed convex optimization theory and high efficient algorithms in estimation fusion, which opens a very attractive research subject on minimizing Euclidean error estimation for uncertain dynamic systems. Supplying powerful and advanced mathematical treatment of the fundamental problems, it will help to greatly broaden prospective applications of such developments in practice.

From reader reviews:

Stacey Lawrence:

The book Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods can give more knowledge and information about everything you want. So why must we leave the good thing like a book Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods? Wide variety you have a different opinion about book. But one aim that book can give many facts for us. It is absolutely suitable. Right now, try to closer together with your book. Knowledge or info that you take for that, you could give for each other; you may share all of these. Book Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods has simple shape however, you know: it has great and massive function for you. You can seem the enormous world by open and read a e-book. So it is very wonderful.

Patricia French:

Spent a free time to be fun activity to complete! A lot of people spent their free time with their family, or all their friends. Usually they performing activity like watching television, going to beach, or picnic in the park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your current free time/ holiday? Can be reading a book can be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the e-book untitled Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods can be excellent book to read. May be it could be best activity to you.

Patricia Gallagher:

Beside this specific Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods in your phone, it may give you a way to get closer to the new knowledge or info. The information and the knowledge you can got here is fresh from oven so don't always be worry if you feel like an old people live in narrow village. It is good thing to have Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods because this book offers to you readable information. Do you occasionally have book but you do not get what it's facts concerning. Oh come on, that would not happen if you have this inside your hand. The Enjoyable set up here cannot be questionable, like treasuring beautiful island. Use you still want to miss the idea? Find this book and read it from today!

Henry Rodriguez:

You can find this Networked Multisensor Decision and Estimation Fusion: Based on Advanced Mathematical Methods by visit the bookstore or Mall. Only viewing or reviewing it could to be your solve issue if you get difficulties for the knowledge. Kinds of this publication are various. Not only through written or printed but can you enjoy this book by simply e-book. In the modern era such as now, you just looking of your mobile phone and searching what their problem. Right now, choose your own personal ways to get

more information about your publication. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose right ways for you.
