*From Ricoeur to Action* engages with the thinking of the French philosopher Paul Ricoeur (1913-2005) in order to propose innovative responses to 21st-century problems actively contributing to global conflict. Ricoeurs ability to draw from a diverse field of philosophers and theologians and to provide mediation to seemingly irreconcilable views often has both explicit and implicit practical application to socio-political questions. Here an international team of leading Ricoeur scholars develop critical yet productive responses through the development of Ricoeurs thought with respect to such topics as race, environmental ethics, technology, political utopia and reinterpreting religion.

Representing a new generation of Ricoeur scholarship that attempts to move beyond an exegetical engagement with his philosophy, this collection of original essays examines key problems in the 21st-century and the ways in which Ricoeurs philosophy understands the subtleties of these problems and is able to offer a productive response. As such it presents an elucidation of the practical significance of Ricoeurs thinking and an innovative contribution to resolving socio-political conflicts in the 21st century.
