This is a concise and accessible guide to the syntax of Modern French, providing a clear overview of those aspects of the language that are of particular interest to linguists. A broad variety of topics are covered, including the development and spread of French; the evolution of its syntax; syntactic variation; lexical categories; noun, verb and adjective phrases; clause structure; movement; and agreement. Drawing on the work of a wide range of scholars, it highlights the important role of French in the development of syntactic theory and shows how French challenges some fundamental assumptions about syntactic structure.
