The Industrial Age: Economy and Society in Britain since 1750 Charles More

A new edition of this popular single volume survey of the British economy from industrialisation to the present day. This key text has been updated to cover a further decade of Britain's economic and social fortunes. In particular the chapters on the industrial revolution have been extensively revised and there is a new chapter on environmental history. The Industrial Age marshals a wealth of statistical and other evidence, using economic theory to analyse recent British economic change.
