Alv Egeland, William J. Burke

Carl Størmer: Auroral Pioneer: 393 (Astrophysics and Space Science Library) Alv Egeland, William J. Burke

This biography summarizes the seminal contributions to auroral and space science of Carl Størmer (1874 - 1957). He was the first to develop precise photographic methods to calculate heights and morphologies of diverse auroral forms during four solar cycles. Størmer independently devised numerical techniques to determine the trajectories of high-energy charged particles allowed and forbidden in the Earth's magnetic field. His theoretical analyses explained cosmic ray access to the upper atmosphere, 20 years before they were identified by other scientists. Størmer's crowning achievement, "The Polar Aurora," published when he was 81 years old, stands to this day as a regularly cited guide in graduate-level courses on space physics.

The authors present the life of this prodigious scientist in relation to the cultural life of early 20th century in Norway and to the development of the space sciences in the post-Sputnik era.

From reader reviews:

Robert Thompson:

Playing with family inside a park, coming to see the coastal world or hanging out with good friends is thing that usually you will have done when you have spare time, then why you don't try thing that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Carl Størmer: Auroral Pioneer: 393 (Astrophysics and Space Science Library), you could enjoy both. It is excellent combination right, you still want to miss it? What kind of hang type is it? Oh occur its mind hangout folks. What? Still don't understand it, oh come on its known as reading friends.

Mary Craine:

Your reading 6th sense will not betray an individual, why because this Carl Størmer: Auroral Pioneer: 393 (Astrophysics and Space Science Library) reserve written by well-known writer who knows well how to make book that may be understand by anyone who all read the book. Written with good manner for you, leaking every ideas and creating skill only for eliminate your current hunger then you still question Carl Størmer: Auroral Pioneer: 393 (Astrophysics and Space Science Library) as good book not only by the cover but also by content. This is one reserve that can break don't judge book by its protect, so do you still needing yet another sixth sense to pick this specific!/? Oh come on your reading sixth sense already told you so why you have to listening to a different sixth sense.

Nikki Kirkland:

You may spend your free time to read this book this guide. This Carl Størmer: Auroral Pioneer: 393 (Astrophysics and Space Science Library) is simple to deliver you can read it in the area, in the beach, train along with soon. If you did not have much space to bring typically the printed book, you can buy the actual e-book. It is make you easier to read it. You can save often the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.

Susan Arnold:

Don't be worry in case you are afraid that this book will certainly filled the space in your house, you could have it in e-book technique, more simple and reachable. This specific Carl Størmer: Auroral Pioneer: 393 (Astrophysics and Space Science Library) can give you a lot of buddies because by you considering this one book you have thing that they don't and make you more like an interesting person. This book can be one of one step for you to get success. This publication offer you information that perhaps your friend doesn't know, by knowing more than other make you to be great people. So , why hesitate? We should have Carl Størmer: Auroral Pioneer: 393 (Astrophysics and Space Science Library).
