Magic is real. Strange forces and uncanny creatures abound. Cosmic evil is loose in the world--especially around San Diego--along with transcendent evil, primordial evil, simmering evil, objective evil, and specific evil.

In sheer self-defense, most of the human race long ago taught themselves to shut their magical Third Eye, blinding themselves to this supernatural world around them. As protection goes, it's not 100% effective, but it's still pretty good: If you can't see them, they can't see you.

Fortunately for the rest of us, a few people can deal with the weirdness. In San Francisco, a motley group of adventurers have banded together to fight evil. They're an uncanny mix of alchemists, thaumaturges, necromancers, and totemists, working their wildly different magics in a milieu where thaumaturgy is a laboratory science and raw pain can be kept in a flask of liquid nitrogen. They know they don't know what they're doing. And they have to save a world that doesn't know it's under attack from forces that they wish were beyond comprehension.

Poised, headspinning, and richly inventive, *Bad Magic* from Stephan Zielinski shows us what people really see when their third eye opens.
